Striking From the South, They Are
Capturing Dibercourt. War Office
Statement Says

(By United Press.)
Amsterdam, Sept. 10.—German war correspondents report that Douai is being evacuated, according to dispatches here today.

Geneva, Sept. 10.—Austrian divisions have been withdrawn through the Tyrol to the French and Flanders front according to advices from Italian headquarters. This means giving up plans for the Austrian offensive.

Berlin (Via London) Sept. 10.—Minor sections of the German trenches in Flanders have been taken by the British, the war office announced today. British attacks against Gouzeaucourt and Etehy were repulsed, the statement said.

Paris, Sept. 10.—Striking toward St. Quentin from the south, the French are capturing Dibercourt, 7 miles from the city, the war office announced today.

The French are making progress in the direction of Hinacourt and Essigny-Le-Grand, the statement said. These towns are north of Hinacourt.

With the British Army in France, Sept. 10.—1 P. M.—British forces below Etehy attacked at five fifteen o'clock this morning. The assault was made on a front of 3,000 yards despite the rain which is sweeping the battlefield, and mud that impedes operations.

Etehy is on the Hindenburg line a short distance south of Gouzeaucourt, where the British attacked yesterday, winning important territory. British troops like the French, are edging closer to St. Quentin. An outpost was reported established this morning near Fresnoy-Le-Petit, three miles from the Hindenburg line and more than three miles northwest of St. Quentin.

British Beyond 1917 Line

London, Sept. 10.—"Already we have pressed beyond our old battle line of 1917, and we have made a wide breach in the strongest defenses," Field Marshal Haig declared today in an order of the day.

"All ranks have borne themselves in an honorable and a worthy manner."

"The British captured 75,000 prisoners and 750 guns in four weeks. This keeps up the magnitude of our efforts and our magnificent achievements."

An advance near Havrinecourt during the night was reported.

Win Brisk Engagement

With the British Army in France, Sept. 10.—The British today hold their year-old trenches facing the Hindenburg line at Gouzeaucourt, as the result of a brief but brisk engagement.

According to captured orders, the Germans proposed to remain here

Hints At Shift In Command Of American Army

Lord Northcliffe's Paper's Suggestion That Changes May be Made in France Brings Rumors of Friction Which May be Groundless.

(By United Press.)
Washington, Sept. 10.—Just a brief line from Lord Northcliffe's paper hinting at a shift in the British army command and perhaps in the American, has caused broad speculation here.

But as far as it was possible to ascertain today, there is no present prospect of removing Pershing from leadership of the American force. Officials who should know said they doubted it would happen now. Others say there is no friction between Pershing and March, who is the ranking officer of the entire army organization.

From time to time there have been rumors of difficulty between the men but these differences are characterized as honest differences of opinion with no resemblance of a split.

There is a strong feeling that German propaganda may be behind rumors that Pershing is to be relieved and likewise behind rumors that Secretary Baker is to be removed or relegated to some other position than his present one.

Northcliffe intimated that there might be a change in the American command as well as in the French and Italian.

for some time, while their retirement to permanent lines was accomplished to the southward, but they were quickly prodded out. This gain forecasts an early enemy retreat behind the main line here.

Immediately after the British attack, the Germans counter-attacked and pushed Haig's men back behind the village, but a renewed British assault gained all objectives and 50 prisoners.

The German counter attack indicates the reorganization in some manner of the division opposite the British.

Advance In Local Attacks

With the Americans in France, Sept. 10.—Americans have advanced in local attacks against the La Petite Montagne. After a strong bombardment of the hill, the Americans launched their assault Monday. The fight is still continuing.

Our infantry went forward in small groups, filtering in between the enemy machine gun nests which were thickly scattered through the wooded ravine. The Americans picked off German snipers and gun crews one by one. When the last word was received, the Americans were approaching the foot of the plateau, and working around the sides of the tableland.

The advance was most difficult owing to the large number of machine gun nests and snipers. Despite this resistance, good progress has been reported. A number of machine gun squads were wiped out.

Richmond Man Indignant At Being Called Slacker

Addresses Letter To Mayor Irvin, Objecting To Term Applied To Him Here Sunday.

LIST OF 23 VIOLATORS HERE

Because he was hailed with the term "slacker" while motoring through this city Sunday, a Richmond resident has written to Mayor A. B. Irvin denouncing the patriotic youngsters in whose eyes every Sunday motorist belonged to the class in which they readily placed the visitor.

The letter was a most indignant message to the city's chief executive, the writer who evidently is a Wayne County physician, stating that he carried an emergency banner on the side of his car and that he was enroute to Greensburg where he was called to accompany a member of his family home, who was ill.

Evidently the young patriots

seffed at the emergency banner and, according to the injured man, were under impression that it was being used as an alibi which would allow him to burn gasoline at will on Sundays and still be regarded as patriotic as those who locked up their machines over the week-end.

According to the orders issued from the police headquarters, the names of all motorists and the numbers of their cars were taken Sunday. A list was compiled of eighteen names and in addition five numbers, the names of the drivers not being obtainable.

The mayor explained today that the list would be kept for future reference, that nothing would be done with the present list as each case might have been one of "emergency" a recurrence several times of the offense, however, will be regarded in direct opposition to the request of the fuel administration.

Seventy of these arrested were thrown into prison. Consul Poole has turned his affairs over to the Norwegian consul and reported under date of Aug. 26 that he had sent the staff and American citizens to Stockholm for fear of reprisals against Americans.

An Atlantic Port, Sept. 10.—Sinking of a big German submarine Sept. 1 in mid-Atlantic was reported today by members of the crew of an American oil tanker. The fight took place 1,600 miles off the coast. The battle lasted 40 minutes. When the final hit was scored, it was asserted, the U-boat was blown out of the water and knocked to pieces.

MEN 18 AND ABOVE 36 THE LAST TO BE CALLED

Provost Marshal Says Registrants 19 and 20 and 32 to 36 Will be Inducted First

CLASS ONE SOON EXHAUSTED

(By United Press.)
Washington, Sept. 10.—Men between the ages of 32 and 36 inclusive, and 19 and 20 year-old registrants will be called first in the new draft, Provost Marshal General Crowder announced today. Eighteen-year-old men and those above 36 will be called later.

September calls will practically exhaust the original class 1 supply. A few who registered on Aug. 24, are being classified now.

Mailing of questionnaires will begin at once after registration next Thursday. By Sept. 15 all states should have reported to Washington their total registration and the work of assigning numbers by the local board will be under way.

Boards will concentrate on the calls of men between 19 and 36 inclusive, leaving those who are not liable to immediate call for later attention.

MAILS HALF OF THE NEW QUESTIONNAIRES

State Conscription Officer Will Send Remainder of Apportionment When Received

TEN MEN ARE PHYSICALLY FIT

The county army selection board today received word that one-half of the county's apportionment of the third edition of questionnaires were being mailed and would be received here very shortly. The other half will be mailed by the state conscription agent as soon as they are received in Indianapolis. The new questionnaires differ from the old ones only in one particular. A new series of questions have been added, which have to be answered by only firemen and policemen.

Every one of the ten registrants called for examination yesterday were found physically qualified for general military service. Others were being examined today. Three of the ten passed yesterday were geographically men of the 1917 class and the remainder registered August 24 last. Those found physically fit were:

LOAN MACHINERY IS IN READINESS

Every Department of War Service Machine is Prepared For Launching of Campaign

TAKE PLEDGES SATURDAY

Subscribers Must Take Their Purchases at Banks Where Deposits Are Placed

With every department of the county's war service machine in readiness, the Rush county Liberty Loan officials are awaiting the launching of the fourth drive here Saturday and are preparing to put over the campaign with such speed which has never before rivaled such undertakings.

Although the national drive proper will not be launched until Sept. 28, every county in Indiana will begin the taking of pledges Saturday in order that the national opening campaign date may also mark an over-the-top subscription in the Hoosier state.

Because the county quotas are to be based on the bank resources, Earl H. Payne, chairman of the executive committee, has requested that subscribers make their bond purchases from the banks where their accounts are placed, regardless of where they live.

Official credit will be properly taken by the county in which the bank is located through which the subscription is entered. It is where his bank account lives which counts, rather than where the subscriber himself lives. Because considerable trouble has been caused in Rush county through subscribers not following this mode of bond purchasing, Mr. Payne urgently desires that the requested routine of purchase be followed.

The complete liberty loan organization for the county, including both the executive committees and canvassers of each township is as follows:

Ripley Township

Central Committee—R. H. Hill, M. P. Lovett, Mrs. R. H. Hill and Miss Winona Newsum.

WHEAT MEETING TO BE HELD AT RALEIGH

J. A. McCarty of the Extension Department of Purdue University Will Speak

MEETING ON EN INLOW FARM

As the time for wheat planting approaches, agriculturalists are using every means possible to spread expert knowledge among the planters in order that the crops might be planted both economically and result in the increased production which the county has promised.

With this end in view, farmers from over the county are preparing to attend the wheat meeting which will be held in Raleigh hall tomorrow night. J. A. McCarty of the extension department of Purdue university will discuss various wheat planting processes, after which the treatment of wheat for smut will be discussed.

Fifty wheat raisers from the southern part of the county attended the meeting which was held on the En Inlow farm, east of Monilla yesterday. An unusually large amount of wheat was treated for stinking smut by Marion Detrick, county agent.

PLAYERS WRANGLE WITH COMMISSION

Argument Over Whether First Division Teams Would Share in Profits Delays Game Today

AGREEMENT FINALLY REACHED

(By United Press.)

Fenway Park, Boston, Sept. 10.—The fifth game of the world series was delayed to-day while players and the national commission wrangled over division of the receipts, but an agreement was reached and the game began, Boston needs one game to win the series.

At 2:30, the time the game was supposed to start, not a player of either club had appeared on the field in uniform. Crowds in the stand were becoming impatient while they waited for the beginning of the game. In the meantime players of both teams refused to take the field until the national commission had announced a decision on whether or not players on other teams in the first division of the two leagues would participate in the profit. The commission declared that a decision would not be given until after the game. The players demanded a show down before the game started.

Indications were that the club owners would have lost the biggest attendance of the series if the game had been abandoned.

Miss Jean Richards, who has been employed at Johnson and Jones auto sales room, has accepted a position at the Princess theatre.

Protective Foods

We have heard much in recent years about two very important "growth promoting substance" we called vitamins which are said to be vitally necessary for our well being. One of these is found in butter-fat, milk, egg yolk, the leaves of plants, glandular organs, such as kidneys, liver, and sweetbreads, in traces in the germs of seeds, muscle tissue, animal fats. The other one is in almost all foods, except bolted flour, degenerated cornmeal, polished rice, starch, sugars and in fats and oils.

It is no more of a problem to get these substances in our food than it is to get plenty of mineral matter in the same way. In fact as far as the second one of these "growth promoting substances" is concerned, there is almost nobody in the United States who does not get it without any special effort on his part.

In order to get plenty of mineral matter and a good supply of the first need only to remember to eat plenty of milk and milk products, plenty of the leafy vegetables. There should be considered as protective foods and we should eat some of them every day. They will make good the elements lacking in bread, cereals, potatoes and other tubers and in vegetables such as beets, turnips and radishes.

Drink plenty of milk, all food authorities say. Eat all the pure ice cream you want, provided you do not run over your sugar allowance. Use butter and cheese. Make milk soups and milk desserts. Try to include one of the following in your day's meals: cabbage, cauliflower, Swiss chard, collards, Brussels sprouts, lettuce, celery, spinach or onions.

If you happen to be one of those persons who eats all of the salad but the lettuce leaf mends your ways. For lettuce is one of those leafy vegetables which contain mineral salts absolutely essential to the welfare of the body.

Do not let people tell you that lettuce is not much of a food because its fuel value is so low. Mineral matter is just as important as "calories."

Eat plenty of salad—lettuce leaves and all take it from the experts of the United States food administration.

Conversion Of Liberty Bonds

The privilege of conversion which arose in consequence of the issue of 4 per cent bonds of the Third Liberty Loan will expire on November 9 next and under existing law can not be extended or renewed. Delay in exercising the privilege will result in overburdening the banking institutions of the country and the treasury department by making it necessary to handle all conversions at the last moment and may result in many cases in the loss of the privilege of conversion altogether.

Holders of coupon bonds are strongly advised to exchange them for registered bonds in order to protect themselves against the risk of loss, theft, and destruction of their

ASK RETURN OF THE REV. CLYDE S. BLACK

Resolutions Unanimously Adopted
at Fourth Quarterly Conference of M. E. Church

EVERY-MEMBER CANVASS ON

The appreciation of the excellent work rendered during the year by the Rev. Clyde S. Black, pastor of the St. Paul's Methodist church, resulted in the unanimous adoption of a resolution at the fourth quarterly conference of the church last night, asking for the continuation of the pastor's work here.

Dr. J. M. Walker, superintendent of the Commerceville district of the Methodist church, presided at the meeting, which was attended by a large number of the official members from every department. Reports were received from each section of the church work which in every instance reached a higher plane of standardization than the reports of the year previous indicated.

The conference ratified the newly named board of trustees and stewards and in addition twelve standing committees for the year, all of whom will assume their new duties when the new church year opens in a few weeks.

Twenty canvassing teams are at work this week in all parts of the church pastorate taking pledges in the every-member canvass. The work is to be finished by the close of the week in order that a complete report may be made at the services next Sunday.

Amusements

Famous Star At Princess

Ann Pennington, the famous little star of the Zeigfield follies, will appear at the Princess theater this evening in a delightful drama, "Sunshine Ann", which has been especially adapted to the charming little actress who will appear in the leading role. In addition Ford Sterling and Loise Fazenda will appear in an excellent comedy, "The Summer Girl". Tomorrow afternoon and evening Constance Talmadge will star in "Up the Road With Sallie". The program will be supplemented with a reel of Pathe News pictures. On Thursday, Wallace Reed will appear in "Believe Me, Xantippe".

A Woman's Hearty Recommendation.

Worry and overwork cause kidney trouble, and women suffer equally with men. Miss Sara Westen, Belvidere, Ill., writes: "I could not stoop down and when I was down I had to crawl up by a chair. I was so lame I suffered agony. Now I feel like a new person, strong and better in every way. My general health is quite improved. I heartily recommend Foley Kidney Pills to all suffering the way I did." They relieve dizziness, puffiness under eyes, sore muscles and joints and rheumatic pains when caused by disordered kidneys. Miss Dorothy Sparks entertained
 Saturday evening for the Misses
 Katherine Wooden, who is to leave
 soon to resume her work at Indiana
 University and Katherine Wyatt who
 left today for an eastern school.
 The dining room where the splendid
 dinner was served, was beautifully
 adorned with summer flowers ar-
 ranged in baskets and wall pockets,
 when covers were laid for seven.

Several new members have been
 added to the War Mothers club,
 which is weekly increasing its mem-
 bership. The members taken into the
 organization at the regular meeting
 with Mrs. Ed Mullins Saturday were:
 Mrs. James Watson, Mrs. B. F. Mil-
 ler, Mrs. Emily Coleman, Mrs. Char-
 les A. Manzy, Mrs. Stella Beaver,
 Mrs. F. R. McClannahan and Mrs.
 Ida Laughlin.

Mr. and Mrs. John Jordan were
 the host and hostess last evening
 honoring James Lock and children
 Mildred and Robert, who will leave
 tomorrow for their home in Coden,
 Alabama. A great many of their
 friends were present and an enjoy-
 able good time was spent during the
 evening.

Mr. and Mrs. Brue Johnson, living
 west of this city, entertained with a
 prettily appointed dinner party at
 noon Sunday. The guests included
 Ida Dixon, Gertrude Dixon and Mrs.
 Myrtle McDonald of Indianapolis.

The members of the Psi Iota Xi
 sorority will meet tonight at the
 home of Miss Laura Holden in East
 Seventh Street, instead of the home
 of Miss Katherine Giffin.

The members of the 500 club will
 be entertained this evening at the
 home of Mrs. Charles Green in West
 Fifth Street.

School Day Needfuls

Our advance showing of garments appropriate for school and college use is now very complete.
 Make your selections now while the assortments are at their best.

For the school girl 6 to 12 years there is a wonderful variety of stylish and serviceable coats of
 all wool cloths, corduroy, or plush; serge dresses in several shades; gingham frocks of pretty plaids,
 contrived in a novel fashion; middies, smocks and middy skirts; sweaters, well made in a good
 assortment of colors; raincoats; maslin and knit underwear.

The college and high school miss will find here a splendid showing of just the sort of garments
 she will wish. Particularly striking is the extensive variety of serge dresses, either simply made or
 trimmed elaborately. The very meagre prices attached to these will surprise you. Every girl will
 desire one of the Middy and Norfolk Suits with pleated skirts when she sees them. Then there is
 an abundance of Handsome Wooltex coats and suits, sweaters, middies, gingham dresses of Princess
 make; waists and skirts.
